*Reasons for allowance*

1. This communication is in response to applicant's 05/04/2005 amendment in the application of Kovacevic et al. for a "Method for displaying data" filed 01/24/2000. This application is a Request for Continued Examination (RCE) under 37 C.F.R. 1.114 filed on October 05, 2004. The proposed amendment to the claims and response have been entered and made of record. Claims 6, 7, 10, 26, 37 have been canceled per applicant's request, and Claims 1, 12, 21, 27, 34, 35 have been amended. The claims have been amended to better point out and more distinctly claim subject matter comprising the invention.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

3. The application has been amended as follows:

IN THE CLAIMS:

Claim 8: line 1, replace "claim 7" with --claim 1--

4. Claims 1-5, 8-9, 11-25, 27-36 and 39 are allowable as evident by applicant's amendment (Claims are renumbered as 1-33 respectively)

5. The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose or suggest the step of detecting a third splice indicator using transport packet demultiplexer hardware, requesting acquisition of a current program management table in response to the third splice indicator; requesting acquisition of a current program management when, in response to detecting the third splice indicator, it is determined that a third splice state has been countered, wherein the third splice state is based upon a third splice countdown value parsed by the transport packet demultiplexer hardware, and includes the first splice countdown value being a negative value; wherein detecting the second/first splice indicator includes generating a second/first splice interrupt based upon the second/first splice indicator; and determining the new packet identifier occurs in response to the second/first splice interrupt, as specifically recited in the claims. The instant invention, in combination with the other claimed features, improves upon the Prior Art by providing a method and system for the splicing of two different MPEG-2 data streams.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Man U. Phan whose telephone number is 571-272-3149. The examiner can normally be reached Monday through Friday from 6:30 am to 2:30 pm.
